### FYI

All Events are run with the Swiss System Qualification. Qualified teams will play single elimination.

The way the Swiss System Qualifications works is like this... After first match teams will be either 1-0 or 0-1. If there are 32 teams everyone will play 1 match, 16 will be 1-0 and 16 will be 0-1 after first match. Then a second match will be played where all the 1-0 teams will play another 1-0 team and all 0-1 teams will play another 0-1 team. Next round 2-0 teams will play another 2-0 team, 1-1 teams will play another 1-1 team, and 0-2 teams will play another 0-2 team. This will continue for 4 or 5 matches till top teams qualify for single elimination.

Senior Doubles and Senior Singles winners qualify for ITSF World Championship 2017 Germany

Each round in qualifications will be 2 out of 3 with 25 min time limit. In case of a tie, the team that scores the next point wins.

Team seeding will be determined by Accelerated Seeding System with Strength of Schedule determining tie breakers. B1 is the first tie breaker and B2 is the second tie breaker. B1 of a player is the sum of wins of all opponents played against. B2 is the sum of wins of the opponents of your opponents. If you had opponents which won all games your strength of schedule is much higher than the player who played teams which lost all games. In other words, the player with the higher strength of schedule had better opponents and will be ranked higher when points are equal.

Top 4 teams qualify for Warrior Division Elimination Round.

Next 8 teams qualify for Pro Division Elimination Round.

First Round loser of Pro Division and all non-qualifiers will be entered into 2<sup>nd</sup> chance Single Elimination Draw.

NO ROLL OVERS ALLOWED IN Warrior Open Qualifiers. (Doubles, Singles, Mixed)

Roll Overs will be allowed in Pro-Division Elimination Rounds and 2<sup>nd</sup> chance Single Elimination Draw.
